Its physiological effects upon the system are indigestion, dyspepsia, or worse evila

Lime is a caustic so powerful that it is used by tanners to eat hair from hides of animals and in dissecting rooms to rot the flesh from the bones of dead subjects. The presence of this adulterant in these powders results from the use of impure cheap cream of tartar.

Royal Baking Powder Absolutely Pure.

The Royal Baking Powder is made from Cream of Tartar specially refined and prepared for its use by patent processes by which the Tartrate of Lime is totally elimi-

This highly important result has been attained only with great care, labor, and expense. - In money alone a quarter of a million dollars has been invested in patents, machinery, and appliances by which the crude Cream of Tartar, being procured directly from the wine districts of Europe and subjected in this country to these exclusive processes, is rendered entirely free, not only from the objectionable Tartrate of Lime, but from other foreign sub-

This adds greatly to the cost of manufacturing Royal Baking Powder; but, as all its other ingredients are solected and prepared with the same precise care, and regardless of labor or expense, an article is produced that is entirely free from any extraneous substance, and chemically pure in all respects.

The following report of Prof. McMurtrie, late Chief Chemist of the Department of Agriculture, United States Government, was made after a thorough test of the cream of tartar of commerce. The position in which this report e tabliches Royal as at of itely pure and while once from artaliable by any other baking playder in the world: 19

The Postal Service

The Commercial, which a short time since pretended to be very much interested in the efficiency of the postal service at the very time when the monrieter of that was urging the removal of three o four efficient clerks to make room for one of his own employed, a Ward One Democratic politician, and some others, has dropped that farce and now does not pretend that the welfare of the service is of any consequence as compared with the inportance of providing places for Demountil fine workers. Referring to the latest tage of the Postmister General's disregard of like public assurance to postal clerks

the Republican party came into power were
removed to make room for their "inexperienced" Republican successors.

"The troung came" referred to the "Mark

The "young man" referred to is Mr. F. B. Woodbury, who received his appointment Abgust 5th, 1882, at a time when the service was being increased so that instead of displacing an efficient oferthe was appointed an additional hand in order to improve rather than cripple the service Furthermore than that Mr. Woodbury had served for a number of years' as letter carrier in this city, was therefore more or less familiar with his new joutles, and his promotion was in accord with civil service rules. As to the "experienced and efficient clerks who were serving the country when the Republican party came Into power" the editor of the Commercia is requested to inform the public just how many postal clerks; were, running into Bangor at that time. The magnificent railway postal service in this country to-day is one of the many cloquent testimonials of the business capacity of Republi-Administrations, under which it has been perfected, and any attempt to make it appear, that any

thing like the present system, with its thousands of experienced and faithful

plerks, existed before the Republican party nine into porter is the morest nonsense. Furthermore the Republican party when, teame into power had something besides the spulls of office to think about. It had n Democratic rebellion to quell and it was equal to the task imposed upon it. The present Administration however, was supported by many people on delvil service reform basis, and Postniaster General Vilas affords a fair illustration of the manner in which the Government service is being reformed, namely, by tarning out expent enced Republican officials to make comfor Democratio wire pullers. If they would stand up and say the rule cas belong to us and we propose to have them such a course would at least be homes, but to masquerade in a civil service costume

Bix months ago I was completely expered with a tarrible humon and serorious sores. The humor saused an incessant and intelerable stabling, and the akin cracked so as to cause the blood to flow in many places whenever I moved. My sufferings were great, and my life a burden. I commenced the use of the Samarraminta in April last, artificave used it regularly since that time. My condition began to improve at once. The sores have all bealed, and I feel perfectly will in swery respect—being now able to do a good day i work, although 13 years of ago. Many inquire what has wrought such a our'd in my case, and I tall them, as I have here tried to tell you, ATRE'S BARBAPAILLA (Bloov, Vk.) Oct. 21, 1892.

TOLD IN TWO LETYERS. FROM THE SON: YELL OF BE MEET

Centlemen My father resides at Glover,
VL He has been a great sufferer from Serof-nia and the inclosed letter will tell you what a maryolous effect

Aver's Sarsaparilla has had in his case. I think his blood mass have contained the humar for at least ten

pearied at that time, it gradually spread so as to cover his entire body I sature you he was terribly affilieted, and an object of pity, when he began naing your medicine. Now, there are few man of his age who onjoy as good health as its has. I could easily name fifty persons who would testify to the facts in his case.

Your truly, W. M. PERLAIFA.
